

## The Show

This is an interactive comedy magic show that draws the audience in and **they** become the stars of the show. The show uses the classics of magic with a unique comedy twist, like nothing you have seen before! The routines have been honed over thousands of shows in theaters, ballrooms cruise ships and state fairs across North America and around the world. It is a clean corporate show that will make you look good and reflect the best of you and your company.
